

# FLAME-A-GUARD III™

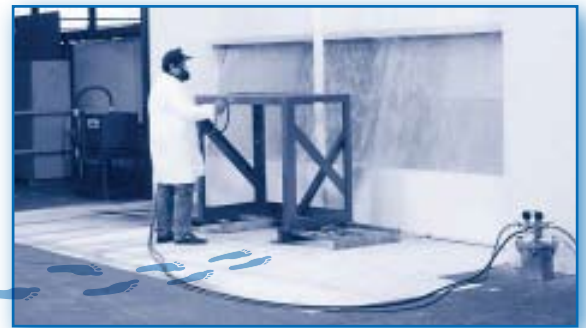

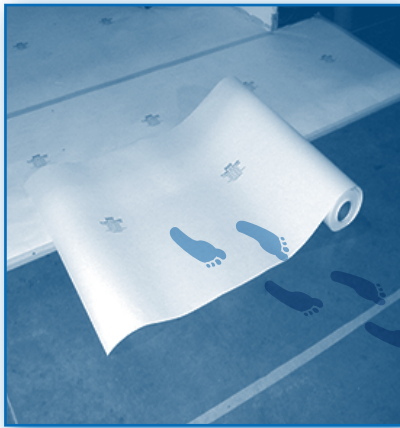

# Flame Retardant Paper

**NEW**  
2 Additional Weights

- Provides quick, economical compliance with OSHA requirements.

OSHA REG. NO. 1910.107(b)(3) "Floors."

*The floor surface of a spray booth and operator's working area, if combustible, shall be covered with noncombustible material of such character as to facilitate the safe cleaning and removal of residues.*

## Flame Retardant Paper key features:

- White—improves booth visibility
- Paper will char but will not propagate flame
- Allows fast and easy booth clean-up—no scraping, stripping or scrubbing
- Lint free
- MSDS available on [www.binks.com](http://www.binks.com)
- Eliminates tracking paint from spray booth to other plant areas
- Rolls are individually boxed for easy storage and shipping
- Increases plant efficiency and reduces clean-up and shutdown costs
